

HEATING AND COOLING REBATES APPLICATION

Equipment must be installed January 1, 2017 – December 31, 2017.

Application must be submitted within 90 days of installation or by February 28, 2018, whichever comes first.

Visit ComEd.com/HeatingCooling to apply online.

HOW TO APPLY

1

VERIFY ELIGIBILITY

- You must be a current ComEd residential delivery service customer.
- Review the [Heating and Cooling Rebates Eligibility Catalog](#) to ensure the equipment meets the rebate eligibility requirements and terms and conditions. If you are uncertain, speak with your contractor or call 855-801-5806.

2

COMPLETE APPLICATION

- Check your application to ensure it is correct, legible, complete and signed before submitting.
- If applying for more than one rebate, complete and submit additional copies of pages 3–4 as needed.

3

SUBMIT APPLICATION

- Make sure the following are included on your invoice:
 - Equipment make, model and serial number for each unit installed
 - Installation date
 - Payment terms (for example, balance due of zero, financing terms or paid-in-full stamp)
 - Professional contractor business information
 - For central air conditioner, air source heat pump and ductless mini-split heat pump installations: Please provide a copy of the installed system's AHRI certificate.

**Please contact your contractor for a revised invoice before submitting your paperwork if any required information is missing.*

4

RECEIVE REBATE PAYMENT

- After your rebate application is reviewed and approved, you will receive a rebate check in approximately four weeks.

CUSTOMER SIGNATURE **(REQUIRED)**

I certify that the information provided in this application is true and correct. I have read and understand the rebate eligibility requirements and terms and conditions set forth in this application and in the Heating and Cooling Rebates Eligibility Catalog, and agree to abide by these requirements. I also agree that by receiving a rebate, I may be contacted by an evaluator to verify the installation through an on-site inspection or be asked to complete a customer survey.

ComEd Customer Signature:

Print Name:

Date:

Submit the mandatory materials to receive your rebate:

- Completed rebate application
- Contractor invoice
- AHRI certificate *(for central air conditioner, air source heat pump and ductless mini-split heat pump installations)*

Submit this application by **ONE** of the following methods:

Mail: **ComEd Heating and Cooling Rebates
3100 West Road, Bldg 3 - Suite 200
East Lansing, MI 48823**

Email: **HeatingCoolingRebates@ComEd.com**

HEATING AND COOLING REBATES APPLICATION

CENTRAL AIR CONDITIONER AND AIR SOURCE HEAT PUMP

Central Air Conditioners	Rebate	Air Source Heat Pumps	Rebate
<input type="radio"/> ≥ 16 SEER central air conditioner	\$400	<input type="radio"/> ≥ 16 SEER air source heat pump	\$600
<input type="radio"/> ≥ 15 SEER central air conditioner	\$300	<input type="radio"/> ≥ 14.5 SEER air source heat pump	\$400

Unit	Install Date	Make	Model	Serial Number	AHRI Number
Indoor Unit (coil)					
Outdoor Unit (condenser)					
Furnace	n/a			n/a	

Please answer the following questions about the system you just replaced:

What did you replace?	Was the cooling unit working before it was replaced?	Did the cooling unit need repairs before it was replaced?	Est. Age (# of years old)	Efficiency Rating (SEER)
<input type="radio"/> Central air conditioner <input type="radio"/> Heat pump <input type="radio"/> Electric resistance heating with central air conditioning <input type="radio"/> Electric resistance heating without central air conditioning <input type="radio"/> No existing system	<input type="radio"/> Yes <input type="radio"/> No	<input type="radio"/> No Yes, and the estimated cost of repairs was: <input type="radio"/> less than \$570 <input type="radio"/> \$570 to \$750 <input type="radio"/> more than \$750		

Information about your replaced heating and cooling system is used for internal purposes and does not impact your eligibility for or amount of a rebate, but is still required.

Installations must meet the minimum efficiency requirements as shown above to qualify for a rebate. The SEER rating from the AHRI certificate will be used to calculate the rebate amount (SEER ratings cannot be rounded up). If the AHRI certificate validates the system at a SEER less than the minimum requirement, your system is not eligible for a rebate.

The indoor (evaporator coil) and outdoor (condenser) combination, in addition to the furnace, must be AHRI certified, validating that the system meets the minimum SEER requirements above. The AHRI certified reference number must be entered in the rebate application.

If the indoor and outdoor units are rated by AHRI in combination with the furnace, separate furnace information must be submitted to be eligible for a rebate. The central air conditioner and furnace must meet a minimum of 15 SEER. If the indoor unit, outdoor unit and furnace are not rated together by AHRI, you are strongly encouraged to verify the overall rating of your new system.

You can obtain the AHRI number and/or a copy of the certificate from your contractor or visit the [AHRI resource](#) for guidance.

For central air conditioner installations only: Rooftop and packaged units do not qualify for a rebate.

For air source heat pump installations: a new air source heat pump installed to replace another type of heating system, such as a natural gas furnace, does not qualify.

HEATING AND COOLING REBATES APPLICATION

DUCTLESS MINI-SPLIT HEAT PUMP (≥ 17 SEER AND ≥ 9.5 HSPF)

New heat pump is supplementing:	Rebate
<input type="radio"/> Electric resistance heat	\$500
<input type="radio"/> Ducted air source heat pump	\$300

Note: Ductless mini-split heat pumps installed to supplement another type of heating system, such as a natural gas or propane furnace, do not qualify.

Unit	Install Date	Make	Model	Serial Number	AHRI Number
Indoor Unit (coil)					
Outdoor Unit (condenser)					

Current Cooling System	What was the new heat pump supplementing? (check ONE): <input type="radio"/> Central air conditioner <input type="radio"/> Room air conditioner <input type="radio"/> Ducted air source heat pump <input type="radio"/> No cooling present <input type="radio"/> Other cooling present
-------------------------------	--

Information about your supplemented heating and/or cooling system is used for internal purposes and does not impact your eligibility for or amount of a rebate.

Installations must meet the minimum efficiency requirements as shown above to qualify for a rebate. The AHRI certificate will be used to calculate the installed unit's efficiency (SEER ratings cannot be rounded up). If the AHRI certificate validates the system at a SEER less than the minimum requirement, your system is not eligible for a rebate.

The indoor (evaporator coil) and outdoor (condenser) combination must be AHRI certified. The AHRI certified reference number must be entered in the rebate application.

ENERGY-EFFICIENT FAN (FURNACE BLOWER MOTOR OR ECM*)

Description	Rebate
<input type="radio"/> Upgraded fan (ECM) in an existing furnace or air-handler	\$125
<input type="radio"/> Energy-efficient fan (ECM) in a newly installed, high-efficiency furnace or air-handler	\$50

Description	Install Date	Make	Model	Serial Number
ECM in existing furnace/air-handler		(ECM)	(ECM)	n/a
ECM in new furnace/air-handler		(furnace)	(furnace)	

**Electronically Commutated Motor*

HEAT PUMP WATER HEATER

Description	Rebate	Install Date	Make	Model	Serial Number
<input type="radio"/> ≤ 55 gallon heat pump water heater	\$500				

What fuel currently heats your home? (Check **ONE**): Electric Natural Gas Propane or Other Unknown

Information about your current heating fuel is used for internal purposes and does not impact your eligibility for or amount of a rebate.
